Washington, DC 20554

To Whom It May Concern:

I am writing to request a waiver to the invoice deadline 120 day extension.

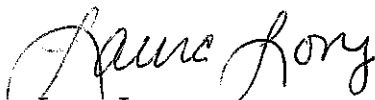

I had filed BEAR online form (form 472) on June 26, 2016, invoice #2403084.

Just recently I realized I had not received the disbursement and sent an email to the Schools and Library Division of the Universal Service Administrative Company (case #22-935209). The response I received was that the invoice was submitted but never certified by the Service Provider, and after July 1, 2016, the Service Provider no longer certifies Form 472 Bear.

I was aware of the new ruling regarding the July 1 date; however, I was under the impression that since I had filed before July 1 that this invoice did not fall into that category. Therefore, I missed the deadline to file an invoice extension.

Sharon Community School is a high poverty district and is in need for the money rate has provided. I apologize for my ignorance in this matter and am asking for one time waiver so that I may file a deadline extension.

Sincerely,

Laura Long
Business Manager
